### Project Description

According to the Inter-American Development Bank, the main objective of this project is to support the generation of capacities for the use of digital technologies in public institutions as an enabler of the digital economy in close coordination with the private sector and to promote more democratic access to these technologies.

The specific objectives would be:

- (i) to establish a strategic vision of the government for the use of the digital economy;
- (ii) accompany the development of programs that promote the design, adoption and use of digital technology that promote higher indexes of country innovation;
- (iii) support the design and implementation of the enterprise to provide social solutions using digital technologies.

---

### Investment Description

- Inter-American Development Bank (IADB)

The local counterpart funding will be US \$14,000.00

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
