Project Description

The general objective of the TC is to support the government of Costa Rica (CR) in the development of the green hydrogen market, in line with the Decarbonization Plan (PD) 2018 - 2050, to reverse the increase in greenhouse gas emissions , and promote economic development and generate employment. The specific objectives are to support CR in: (i) developing a national green hydrogen strategy, and a roadmap that describes the long-term advantages, opportunities, and benefits of producing it; and (ii) identifying the existing gaps for its development, actions, and schedule to move forward with the next steps.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
