### Project Description

The objective of this technical cooperation is to support and promote the iterative process of strengthening the capacities of entities in the transport sector, mainly the Ministry of Public Works and Transport of Costa Rica and its affiliated entities in the management and execution of the portfolio that it has with the Bank, providing it with the support and development of the necessary studies to strengthen projects in technical aspects, transparency, socio-environmental, gender inclusion and people with disabilities, sustainability and digital transformation and innovation.

In order to fulfill this objective, it is proposed to provide: (i) reinforcement of management tools, thus contributing to increasing the effectiveness of projects and the effective achievement of results; (ii) specialized technical support that allows institutional strengthening to carry out efficient management and supervision of projects using, for example, technological, analytical, dialogue solutions between multiple actors and knowledge that, taking advantage of the continuous generation of sector data, promote compliance with the Bank policies and social and environmental safeguards, (iii) advice on the effective promotion and broad dissemination of sectoral actions to promote best practices in terms of equality and inclusion, and (iv) further promotion of a sustainability agenda that promulgate for the maintenance of assets and continuous training (v) knowledge and effective practices for the promotion of competition, transparency and effective communication.

Currently, the Bank's investments in the transportation portfolio in Costa Rica represent 50.4% of the total active portfolio and 64% of the active investment portfolio. This distribution reflects not only geographical representation, the relevance of this agenda for the country, but also continuously demands better governance schemes and management mechanisms focused on effectiveness, efficiency, effective communication, integrity and sustainability .

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
