Project Description

The general objective is to support the Government of Costa Rica to improve employment opportunities for people in vulnerable conditions, with emphasis on young people and women. The specific objectives are (i) to design the conceptual and operational model of a results-based financing pilot for the Empleteate program; and (ii) ensure that the key legal and financial elements for the proper implementation of the pilot are considered during its design.

Investment Description

- Inter-American Development Bank (IADB)

The project lending type is SG. The disbursement period is 18 months.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
