| Investment Amount (USD) | \$ 0.50 million |
| Project Cost (USD) | \$ 0.50 million |

Project Description

According to the IADB, the project aims to support Costa Rica with the design and implementation of its Sustainable Agrolandscapes Strategy that seeks to maintain its territory as a resilient forest and agricultural landscape capable of producing "commodities" with zero net deforestation, and consolidate its transformation towards a carbon-neutral landscape with low consumption of agrochemicals and conservation of high-value forests.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
