Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.50 million

Support for the Design and Implementation of the Sustainable Agro-landscapes Initiative for Carbon Neutrality in the Agricultural and Forestry Sector in Costa Rica

Project Description

According to the IADB, the project aims to support Costa Rica with the design and implementation of its Sustainable Agrolandscapes Strategy that seeks to maintain its territory as a resilient forest and agricultural landscape capable of producing "commodities" with zero net deforestation, and consolidate its transformation towards a carbon-neutral landscape with low consumption of agrochemicals and conservation of high-value forests.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
