<b>Investment Amount (USD)</b>	\$ 0.33 million
<b>Project Cost (USD)</b>	\$ 0.33 million

## Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to support the development of a technology guarantee system in Costa Rica by learning from the best practices of the Korea Technology Finance Corporation (KOTEC). Specific objectives are: (i) designing of a Costa Rican Technology Rating System (CTRS) to identify Small and Medium Enterprises (SMEs) with innovation potential; (ii) development of the Costa Rica Technology Guarantee Scheme (CTGS) and a pilot plan for testing the CTRS in the local context; and (iii) sharing knowledge regarding South Korean innovation policy experience with specific recommendations for Costa Rica's policy makers.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
