### Project Description

According to the IDB, the objective of the TC is to contribute to the implementation of the gender route of the National Institute for Women (INAMU). The specific objectives are: (i) Strengthen public-private partnerships through the gender parity initiative. (ii) Optimize the processes of INAMU's gender pathway and its Gender Equality Seal programs and the recognition of good practices. (iii) Strengthen the institutional capacity of INAMU and give sustainability to the Violet Points and Safe Spaces of the GBV route within the framework of the gender route. The TC and the incorporation of the IPG is presented as a key strategy to close these gaps, by strengthening synergies between the public and private sectors and implementing effective policies and programs that support gender equality in the workplace.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
