## Project Description

According to the IADB, the objective of the Technical Cooperation (TC) is to generate knowledge through the development of the impact evaluation of operation CR-L0166, "Costa Rica Border Integration Program." The purpose of the study is to analyze the direct and indirect impact of improvements at border crossings, assessing both the immediate effects on operational efficiency and the reduction of trade costs, as well as the broader implications in terms of economic integration, regional competitiveness, and productive development. Proposal submitted and approved by Development Effectiveness Intelligence Fund (DEIF).

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
