Project Description

According to the IADB, the general objective of this TC is to strengthen the institutional capacities of the Government of Costa Rica for comprehensive and financial disaster risk management--with an emphasis on the Ministry of Finance (MH) and the National Risk Management System (SNGR), particularly the National Commission for Risk Prevention and Emergency Response (CNE)--through the following specific objectives: (i) strengthening the MH's institutional capacity to improve the financial management of the country's disaster and climate-risk contingent liabilities; and (ii) providing technical support for the implementation of Costa Rica's National Risk Management Plan (PNGR) 2026-2030, within the framework of the PGIRDN. The TC will also support the implementation of the operation "Contingent Loan for Natural Disaster and Public Health Emergencies (CR 00015)," for which the MH acts as the Executing Agency.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
