A Clean Solution for a Dirty Problem: Using Outcome-based Finance to Expand Access to Safe Sanitation, Clean Water and Climate Resilient Infrastructure

Quick Facts

Countries	Dominican Republic
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Sectors	Technical Cooperation, Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.25 million
Grant Amount (USD)	\$ 0.25 million
Project Cost (USD)	\$ 0.25 million

Project Description

Test a scalable, outcomes-based contracting mechanism to increase formal connections to sewage systems. This mechanism will be scaled through an IDB loan to INAPA (DR's water and sanitation authority) aimed to increase the access of vulnerable population to sewage systems in coastal areas. IDB's Water and Sanitation Division (WSA) and INAPA will build on the learnings of this pilot in a second project phase to expand sewage connections for vulnerable groups via a national outcomes-based program thanks to the IDB loan.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
