IADB-DR-L1147

Program to improve connectivity for digital transformation in the Dominican Republic

#### **Project Description**

The general objective is to increase the digitization of the citizens of the Dominican Republic for the continuity of digital services. To achieve this, the following specific objectives are established: (i) improvement of the broadcasting service derived from the efficient use of the spectrum; (ii) improvement of national connectivity through investment in digital infrastructure and; (iii) increase in digital skills and competencies, including a gender focus.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
