### Project Description

According to the IADB, the objective is to contribute to improving the health of the population and environmental sustainability in prioritized tourist cities by improving access to and management of inclusive, climate-resilient, low-carbon water and sanitation services that promote the conservation of natural capital. The specific objectives are: (i) increase safely managed sanitation coverage in the cities intervened by the Program; and (ii) improve efficiency in the management of INAPA and the La Romana Aqueduct and Sewer Corporation (COAAROM).

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
