Borrower	Government of Dominican Republic
Sectors	Education and Health
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 50.00 million
Project Cost (USD)	\$ 50.00 million

Project Description

According to the IADB, the general objective of the project is to improve the health of the population in the Dominican Republic through the promotion of health and the prevention and management of chronic noncommunicable diseases (NCDs), with an emphasis on diabetes and hypertension. The specific objectives are: (i) to help reduce the prevalence of risk factors for chronic NCDs by expanding the coverage of interventions to promote healthy habits and prevent risky behaviors; and (ii) to improve the care network for prompt diagnosis, treatment, and management of chronic NCDs.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
