Project Description

According to the Inter-American Development Bank, the objective of this project is to update the information included in the Sollid Waste Management Master Plan so that it can be used to improve conditions on the ground. The project will consist of the following components:

1. Support for institutional reform and for the drafting of the new law of solid waste and its regulations
2. Update of the Solid Waste Master Plan of the Great Santo Domingo.

Early Warning System Project Analysis

As a technical cooperation, the Inter-American Development Bank has determined that the research and plans will not impact inhabitants. However, should the plans be used, they would have a direct affect on the lives of those living in the selected municipalities.

Investment Description

- Inter-American Development Bank (IADB)

The country will provide US$80,000.00 in counterpart financing. Intern-American Development Bank funds will come from the Japanese Special Fund.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
