Circular Economy Model for Organic Waste in Tourist Zones

IADB-DR-T1213

Quick Facts

Countries	Dominican Republic
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2020-11-12
Borrower	Government of Dominican Republic
Sectors	Climate and Environment, Technical Cooperation, Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.26 million
Project Cost (USD)	$ 0.51 million

Project Description

Development of a decentralized organic waste management model adopting new technologies to make the use of organic waste in hotel kitchens combined with the sargassum that arrive to the beaches, more efficient. The project will develop and information platform with mobile technology to enable real-time access to information on the generation, management and transformation of organic waste under a logic of circular economy.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
