Technical Support for the Comprehensive Reform of the Housing and Urban Planning Sector in the Dominican Republic

Project Description

Support the government of the Dominican Republic in the reform of the housing and urban development sector to propose more accessible and green housing solutions. The specific objectives are: (i) to analyze and evaluate the main challenges in the production and access to housing for low-income households; (ii) design policies and programs to expand access to housing, good-quality built environments and basic services for low-income households; and (iii) formulate and update norms, regulations, and processes that improve the functioning of the housing sector, strengthening national and municipal public institutions.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
