Support for the development of the Mobility Reform Program, Land Transportation and Road Safety in the Dominican Republic

Project Description

The main objectives of this Technical Cooperation (TC) are: (i) support the development of regulations for the application of current mobility Law 63-17, (ii) structure and implement action plans aimed at the development of the Sustainable Urban Mobility Plan (PMUS), (iii) support the integrated collection system for urban transport, (iv) support the strengthening of the "Mobility and Transportation Trust" (FIMOVIT) as an instrument for integrating the public transport network tariff and as a mechanism for financing clean fleets (electric vehicles); and (v) strengthen the institutional capacity of the National Institute of Transit and Transportation (INTRANT), as the key management institution for the sector. In close coordination with the counterpart, this TC is expected to generate empirical evidence and support the design and fulfillment of the actions contemplated in the components of the DR-L1140 Program.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
