| **Investment Amount (USD)** | $ 0.65 million |
| **Project Cost (USD)** | $ 0.65 million |

## Project Description

The main objective of the Technical Cooperation (TC) is to mainstream climate resilience into the Dominican Republic post-Covid 19 recovery investment effort. Specifically, the TC aims to unlock green local job generation, boost sustainable economic growth, and strengthen the resilience of local communities and the Dominican economy to multiple socio-economic and environmental shocks.

**Investment Description**

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
