Support for the structuring of the Care Communities pilot and the offer of care services for people in situation of dependency

Project Description

The objective is to support the design and implementation of the "Communities of Care" Pilot Program in the municipalities of Azua, Santo Domingo Este and Banica. In particular, this TC aims at developing tools and studies to strengthen the design of the Network of Caregivers and the referral and counter-referral system in Care Communities; the definition of the supply of personal services and the strengthening of existing care services for dependent older adults; as well as the adaptation of platforms for simulation of the impact of the proposed interventions and interactive analysis of information on the demand and supply of care for people in situations of dependency; and the analysis of sustainable financing schemes.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
