Strengthening the institutional and regulatory environment to enable competitiveness and business development in Dominican Republic

Project Description

Contribute to the construction of an enabling environment for competitiveness, business development and entrepreneurship in the Dominican Republic through the review of instruments, regulatory framework and government processes. This will be achieved through: (i) an analysis and development of reform proposals to improve the regulatory and institutional framework, as well as the different support instruments in the entrepreneurship ecosystem; and (ii) capacity building for the review, formulation of instruments and regulatory and institutional reform through workshops and advisory services.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
