Bank Risk Rating	U
Voting Date	2025-11-04
Borrower	Government of the Dominican Republic
Sectors	Energy, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

Project Description

According to the IADB, the objective of this technical cooperation is to support the Government of the Dominican Republic in strengthening the electricity system, particularly in two key areas: (i) facilitating the implementation of Energy Storage Systems (ESS) to increase the flexibility of the electricity system, enable better management of energy supply and demand, and promote Non-Conventional Renewable Energy (NCRE); and (ii) developing a conceptual framework for the expansion of transmission and distribution systems to increase operational efficiency (continuity and quality of supply) and the capacity to meet growing demand.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
