Project Description

According to the IDB, this TC aims to support the government of the Dominican Republic (DR) in the formulation, design and presentation of the update of its Nationally Determined Contribution (NDC-2025), to the United Nations Framework Convention on Climate Change. The specific objectives of the technical cooperation are: (i) analyze progress, barriers and opportunities for Climate Action in the DR, and changes in the national context; (ii) support the identification and prioritization of specific measures that will increase ambition and accelerate the implementation of Climate Action in the country in the coming years; (iii) facilitate the inclusion of sectors previously not addressed in the NDC-2020 and thus expand the coverage of sectors and the coherence of Climate Action in the country; (iv) Strengthen and detail specific measures to increase resilience and adaptive capacity against the impacts of climate change; and (v) Establish more effective mechanisms for the implementation and monitoring of the proposed measures.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
