Investment Amount (USD)	\$ 0.15 million
Project Cost (USD)	\$ 0.15 million

Project Description

According to the IADB, the overall objective is to develop two pilot models of Sectoral Skills Councils of the Future, aimed at strengthening the supply of skilled labor in strategic sectors linked to climate change and technological transformation, in alignment with the Dominican Republic's new productive and sustainable strategy to double its GDP. More specifically, the TC will seek to: (i) contribute to the creation of a mechanism for the identification of skills required by productive sectors; and (ii) support the expansion of training opportunities for the country's present and future talent.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
