## Project Description

The objective of the TC is to support the Ministry of Public Health (MISPAS) and the National Health Service (SNS) in developing a comprehensive and sustainable medical waste management system in the Dominican Republic (DR). To achieve this, a diagnosis will be conducted to identify the main gaps in the medical waste management system. As a result, a national management plan will be developed, along with an investment and financing case to facilitate decision-making and resource mobilization for its implementation.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
