Project Cost (USD)	\$ 0.25 million

Project Description

According to the IADB, the objective is to support the Government of the Dominican Republic in establishing the technical framework that enables the sustainable development of potential mining resources. The specific objectives are: (i) to enable conditions for the responsible utilization of the country's potential rare earth elements (REE) resources; and (ii) to contribute to the institutional strengthening of the entities in charge of planning, governance, and development of the mining sector

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
