Project Description

According to the IADB, the overall objective of this Technical Cooperation (TC) is to strengthen the institutional capacity of BANDEX and the financial authorities to develop and implement a second-tier banking model and a partial credit guarantee fund, thereby supporting the preparation and execution of operation DR-L1177. As a result, BANDEX is expected to enhance its institutional capacity to operationalize its new business model, improving access to productive financing for micro, small, and medium-sized enterprises (MSMEs). In addition, the institutional capacity of the financial authorities will be strengthened to develop the regulatory and supervisory framework required for BANDEX's new business model.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
