Investment Amount (USD)	$ 0.13 million
Project Cost (USD)	$ 0.13 million

Design and define the governance framework for digital transformation within the Ministry of Public Administration of the Dominican Republic and modernize the structure of IT departments

Project Description

The overall objective of this Technical Cooperation (TC) is to support the Government of the Dominican Republic in improving the organization and operational instruments of Digital Government. This objective will be achieved through: (i) the institutional design and definition of the functions of a governance body for the digital transformation of the national public sector, with representation from all relevant ministries and agencies; and (ii) the optimization and modernization of information technology departments.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
