Project Description

According to the IADB, the main objective is to foster the growth and profitability of 40 innovative emerging companies, startups, bio-businesses, and SMEs with social, environmental, and economic impact in Ecuador, so that they reduce their greenhouse gas emissions with a vision of decarbonization and circular economy. Additionally, a hub will be created to establish a community of practice to promote social and environmental innovation in the Ecuadorian business sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
