IADB-EC-L1219

Reconstruction Program of the electricity infrastructure in areas
affected by Earthquake in Ecuador

Quick Facts

Countries	Ecuador
Specific Location	Esmeraldas ; Manabí ; Santo Domingo
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2017-01-25
Borrower	Government of Ecuador
Sectors	Energy, Infrastructure
Investment Type(s)	Loan
Investment Amount (USD)	\$ 60.00 million
Project Cost (USD)	\$ 69.20 million

Project Description

The overall objective of the project is to improve electricity service by rebuilding electricity infrastructure in the earthquake-affected provinces of Esmeraldas, Manabí, and Santo Domingo, incorporating earthquake-resistant features. The specific objectives are as follows: (i) to help reestablish electricity supply in the subtransmission systems of electricity distribution companies affected by the earthquake; and (ii) to facilitate the reliable supply of electricity service to end users by implementing distribution projects.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
