Project Description

The general objective of the sectoral CCLIP is to expand the access of Ecuadorian households in housing deficit and in a situation of poverty or vulnerability, to affordable, sustainable and universally accessible social housing in families that require it; both in urban and rural areas. In addition, strengthen the Government's capacity to generate and implement long-term housing policies. The SPECIFIC OBJECTIVEs of this operation are: (i) Reduce the quantitative housing deficit of the low-income population and/or conditions of vulnerability and priority attention, prioritizing households headed by women, people with disabilities, native peoples and the migrant population with considerations of climate change and socio-cultural adaptation; (ii) reduce the qualitative housing deficit of the low-income population and/or conditions of vulnerability and priority attention*, prioritizing households headed by women, people with disabilities, native peoples and the migrant population with considerations of climate change and socio-cultural adaptation; (iii) Improve the efficiency of the administration through institutional strengthening with special attention to the strengthening of information systems.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
