Project Description

According to the IADB, this technical cooperation aims to support the Ecuadorian government's efforts toward a just energy transition by fostering public and private investment. Its specific objectives are to: (i) support the decarbonization of the energy sector by promoting nonconventional renewable energy sources, new alternative generation sources, energy efficiency and demand management measures, regional integration, and e-mobility; (ii) increase private sector participation in electricity service delivery; (iii) make strides toward universal access to electricity; and (iv) reduce gender and disability gaps in the electricity sector.

Investment Description

- Inter-American Development Bank (IADB)

According to the IADB, US\$ 100 million of the total investment amount of US\$ 600 million will consist of funds administered by the Bank under the Korea Infrastructure Development Cofinancing Facility for Latin America and the Caribbean (KIF).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
