## Project Description

According to the IADB, this technical cooperation aims to support the Ecuadorian government's efforts toward a just energy transition by fostering public and private investment. Its specific objectives are to: (i) support the decarbonization of the energy sector by promoting nonconventional renewable energy sources, new alternative generation sources, energy efficiency and demand management measures, regional integration, and e-mobility; (ii) increase private sector participation in electricity service delivery; (iii) make strides toward universal access to electricity; and (iv) reduce gender and disability gaps in the electricity sector.

## Investment Description

- Inter-American Development Bank (IADB)

According to the IADB, US\$ 100 million of the total investment amount of US\$ 600 million will consist of funds administered by the Bank under the Korea Infrastructure Development Cofinancing Facility for Latin America and the Caribbean (KIF).

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
