Project Description

According to the IADB, the objective is to support the development of public agricultural services in Ecuador to enhance the competitiveness of the sector and agricultural exports. Specific Objectives: 1. Improve the productivity and sustainability of agri-food systems and ensure food security and climate resilience by increasing research, innovation, and technology transfer capacity. 2. Enhance phytosanitary, zoosanitary, and food safety services to ensure both the exportable supply and the domestic consumption of safe food in its primary production phase, through the expansion of laboratory analytical capacity, the implementation of service automation, and the adoption of new technologies in information systems.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
