Biofuel Production for Electricity Generation in the Galapagos Islands

Early Warning System

Biofuel Production for Electricity Generation in the Galapagos Islands

IADB-EC-M1075

Quick Facts

Countries	Ecuador
Specific Location	Manabi; Galapagos
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Voting Date	2015-11-05
Borrower	Government of Ecuador
Sectors	Energy, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.61 million
Project Cost (USD)	$ 1.53 million

Project Description

Tha project aims to improve the organization and production practices of small producers of jatropha in Manabi, as input for electricity generation in Galapagos.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
