Project Description

Contribute to improve the country's competitiveness through institutional environments that promote the efficiency and transparency of the economy. The above will be achieved through: (i) strengthening mechanisms for dialogue and coordination between the public and private sectors that allow the deployment of an effective scheme for productive development; (ii) improve efficiency and transparency in the delivery of public services that generate high transaction costs to the productive sector; (iii) support the provision of vertical public goods that address the specific problems of productive sectors with greater growth potential.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
