Investment Amount (USD)	$ 400.00 million

Project Description

The general objective of the project is to help cushion the impact that a severe or catastrophic natural disaster or public health event could have on the country's public finances. The specific objective is to improve the financial management of natural disaster and public health risks by increasing stable, cost-efficient and rapidly accessible contingent financing to cover extraordinary public expenses aimed at assisting the population affected by natural disaster and public health emergencies.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
