Measuring Ecuador's Rural Electrification benefits

Early Warning System

Measuring Ecuador's Rural Electrification benefits

IADB-EC-T1327

Quick Facts

Countries	Ecuador
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2016-06-15
Borrower	Ministry of Electricity and Renewable Energy - Ecuador
Sectors	Energy, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.50 million

Project Description

This project provides funding intended towards studies into ways to provide energy to rural areas in Ecuador and its potential effects on climate change. Specifically, the study is supposed to examine the effects of both clean and "non-conventional" (i.e. carbon producing) energy in rural areas of Ecuador.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
