Borrower	Government of Ecuador
Sectors	Construction, Education and Health
Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.50 million
Project Cost (USD)	\$ 1.88 million

Project Description

The general objective of this TC is to support the Government of Ecuador (GoE) to ensure the resilience of public infrastructure and service systems against eventual seismic events. This TC will support the incorporation of the concept of “build back better” in the rehabilitation/reconstruction projects in Ecuador. Furthermore, the TC will support the GoE in establishing further seismic resilience of public infrastructure and service systems in the country.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
