Project Description

The objective of this Technical Cooperation is to develop the institutional capacities of the selected executing agencies for the identification, development and execution of investment proposals, by sub-national governments, under the Public Private Partnership (PPP) modality in Ecuador. The bank argues that by fostering the development of sub-national PPP projects, this Technical Cooperation will stimulate private sector participation in sub-national public investment. The latter is critical to assist improved efficiency of public investment and to maintain a solid pattern of economic growth.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
