Project Description

This TC aims to support the Education Ministry of the Government of Ecuador to design and evaluate policies and strategies that allow the equitable distribution of the most effective teachers to help the most vulnerable children of the country to aspire to a more prosperous future. The objective is to ensure analysis and small-scale testing of how to best attract teachers to underprivileged areas in Ecuador. The analysis will include profiling of possible candidates as well as development of policy packages to attract candidates.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
