Project Description

The objective is to support the development and implementation of an institutional strengthening strategy to improve competitiveness in Ecuador, through the production of key inputs to lay the institutional foundations and the main technical tools to implement the strategy that would improve the country's competitiveness. This will be achieved through support in the definition of the competitiveness agenda in the country and the identification of the main institutional barriers to economic activity in the country and its corrective measures. To this end, the following activities will be financed: (i) support from experts and studies that contribute to the definition and implementation of the country's competitiveness agenda; (ii) review of the regulatory policy to be carried out by the Regulatory Policy Division of the OECD; (iii) studies aimed at starting the BIM Ecuador strategy; and (iv) conducting exchanges of experiences and workshops on competitiveness, regulatory improvement and to promote public-private articulation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
