# Institutional and Technical Strengthening of the Ministry of Transport and Public Works

## Project Description

Support the institutional and technical strengthening of the Ministry of Transport and Public Works, to contribute the improvement of the processes of identification, design, management, prioritization and execution of projects. Additionally, it will generate added value through the transfer of technical and strategic knowledge in areas relevant to the MTOP project portfolio. The TC is aligned with the Institutional Strategy Update 2010-2020 of the Bank and is linked to the objective of Institutional Capacity and Rule of Law.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
