| <b>Project Cost (USD)</b>      | \$ 0.88 million                             |

## Project Description

This project will seek to minimize the human consequences of the outbreak of COVID-19 for children with disabilities (CWD) and their families across four communities in Ecuador, by putting in place a comprehensive technology-based intervention to support the educational development of CWD at a distance. The project will also enable the monitoring of the children's psychological well-being by providing social-emotional support as they navigate the new realities brought on by the pandemic.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
