Applying innovation to support the inclusion and well-being of children with disabilities during and beyond COVID-19 through a technology-based strategy

Project Description

This project will seek to minimize the human consequences of the outbreak of COVID-19 for children with disabilities (CWD) and their families across four communities in Ecuador, by putting in place a comprehensive technology-based intervention to support the educational development of CWD at a distance. The project will also enable the monitoring of the children's psychological well-being by providing social-emotional support as they navigate the new realities brought on by the pandemic.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
