## Project Description

The objective of this Technical Cooperation (TC) is to support State entities that provide justice services, in the development of a strategy for the digital transformation of justice in Ecuador. To this end, this TC will focus its efforts on: (i) generation of a governance scheme, through the design of a strategy for the creation of an inter-institutional coordination body for the promotion of digital justice; (ii) evaluation of the digital solutions generated in recent years in the sector, and planning of a scheme of opportunities for improvement based on indicators that allow a comparison of experiences with best international practices; (iii) socialization of results and awareness of the problems identified among the stakeholders.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
