Project Description

According to the Bank's website, the objective is to research and produce information and key technical inputs for establishing an advanced state-owned property management system and an online public asset disposal system in an effort to promote the Ecuadorian digital government activities. As a procedure prior to the actual system construction, this TC will allow conducting of a feasibility study through Business Process Reengineering (BPR) and Information Strategy Planning (ISP) consultation and provide new public IT system models customized to the Ecuadorian environment.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
