## Project Description

According to the IADB, the objective of this Technical Cooperation is to strengthen the institutional capacities of the Ministry of Production, Foreign Trade, Investments, and Fisheries (MPCEIP) to promote and enhance conditions for the development of productive sectors. The specific objectives are: (i) to create and strengthen public and private institutional capacities necessary to articulate a policy of Sectoral Executive Boards (MES); (ii) to support the implementation of policy solutions to competitiveness issues identified in the MES; and (iii) to promote monitoring and impact evaluation of resulting policy actions.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
