Project Cost (USD)	$ 0.60 million

Boosting biodiversity and community well-being in amazon provinces of Ecuador - Pastaza, Orellana and Morona Santiago

Project Description

According to the IADB, the objective is to support the Ecuadorian government in its objective of promoting biodiversity conservation and community well-being in the Amazonian provinces of Pastaza, Orellana and Morona Santiago. These territories have valuable ecosystems and are under constant pressure from changes in land use related to urban growth, agricultural expansion and extractive industries.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
