Project Description

According to the IADB, the general objective of this TC is to strengthen the institutional capacity of the Ministry of Public Health to incorporate climate variables into the prevention, prioritization, and management of Non-Communicable Chronic Diseases (NCDs) in Ecuador. The specific objectives are: (i) diagnose the relationship between climate variables and NCDs in Ecuador, establishing a baseline informed by climate projections; (ii) design strategic and operational tools that enable the integration of climate variables into health planning and decision-making processes related to NCDs; and (iii) build knowledge and capacities of the Ministry of Public Health to implement climate-informed and differentiated approaches to NCD management.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
